

IMPACT ON STUDENT LEARNING AND TEACHER PERFORMANCE

The following data was published in the Ohio Educator Preparation Performance Report in February 2020 and includes data from all program completers with effective license years of 2015, 2016, 2017 and 2018. This data is prepared annually by the Ohio Department of Higher Education for all teacher preparation programs in the state.

According to data presented below, Cleveland State has seen an increase in the percentage of candidates receiving average or better for value-added scores, as well as candidates rated as “skilled” or “accomplished” in the Ohio Teacher Evaluation System. As in previous years, higher percentages of Cleveland State candidates accept teaching positions in high minority schools and high poverty schools while still maintaining comparable value-added and OTES scores as other comparable universities.
