

ENVIRONMENTAL STUDIES at Levin.

At Levin, you can learn to build cities, lead communities, and change your environment while immersed in a vibrant and engaging urban landscape. Learn to change the world at Levin.

The Environmental Studies major is designed for students interested in working in environmental planning and analysis for business, industry or government. Students examine major issues dealing with sustainable development, air and water pollution, and hazardous substances. Groundwater protection, wetlands, solid waste disposal, pollution prevention, toxic land contamination, and the treatment of wastewater are some of the many topics addressed.

Students learn to analyze environmental problems of urban areas, build in more sustainable ways, explore policy issues, and understand the social context of environmental conflicts. Our graduates work in the public, private, and nonprofit sectors in environmental and land-use planning, environmental review, recycling coordination, advocacy, and environmental health and safety. In addition to professional careers, this degree prepares students for law school and graduate study.

Accelerated 4+1 program available (BA + MA in Environmental Studies).

CURRICULUM

Urban Affairs College Requirements

UST 200 Introduction to Urban Studies
UST 404 Urban Data Analysis
UST 405 Methods of Research and Evaluation
UST 490 Urban Internship

Major Field Requirements

UST 300 Economics of Policy Analysis
UST 436 Urban Sustainability
UST 489 Advanced Senior Seminar (Capstone)

Natural Science Courses (choose 2 sequences)

1. UST 289 Physical Geography and EVS 302/303 Biological Features of Ecosystems and Lab
2. CHM 251/256 College Chemistry I/Lab and CHM 255 Environmental Chemistry OR CHM 407 Environmental Toxicology
3. PHY 221 Coll Physics I OR PHY 241* and PHY 470 Environmental Physics*

*required for students pursuing 4+1 BA/MA degree

Choose a Concentration:

- + Environmental Planning and Sustainable Development
- + Environmental Management
